

TEAM FOOTBALL

CRICUT & SILHOUETTE:

This design is saved at 10" wide, so right after you open type your team with a maximum width of 10". (Height of the design will depend on your team name.)

Before cutting, weld your letters together to keep them from moving around. Move the bottom two pieces to fit your team name in the middle. For faster placement, you can weld the entire design before cutting for a one piece design.

Select both pieces and resize to your desired size and you're ready to cut!

SUGGESTED FONTS:

Freshman (free commercial use)
